Commissioner for Patents  
Washington, D.C. 20231

Sir:

Prior to examination, kindly amend the application, as follows:

In the Claims:

Please amend claim 5, as follow:

AI

5. (Amended) A dynamic voice call admission method for CDMA systems, comprising:  
for a channel selected from the group of forward and reverse radio channels;  
calculating a current channel power level for voice calls;  
receiving a request to admit a data call, wherein a reserved channel power level for  
data calls will exceed a desired reserved channel power if the call admission request is granted; and  
admitting the data [voice] call if the sum of the reserved channel power level for the  
data calls upon admission and the current channel power level for voice calls is less than a power  
maximum and if, upon admission, a sufficient power is available to admit at least one additional  
voice call.
